

JUNIOR SOFTWARE DEVELOPER

Python | JavaScript | UML | Analytical

SUMMARY OF QUALIFICATIONS

- A collaborative and dependable student of Software Engineering Technology Advanced Diploma
- Experience with applied academic projects using Python, JavaScript, C#, SQL and HTML/CSS
- Implemented CSV validation, time zone-aware calculations and JavaScript DOM event handling
- Authored use-case specifications, UML activity and sequence diagrams for a software design project
- Knowledge of object-oriented programming and SDLC methods; practical Git branching and merging

TECHNICAL SKILLS

Programming:	Python, C#, JavaScript, SQL, HTML/CSS, Java
Design & SDLC:	Object-oriented programming; Agile, Waterfall, iterative methods
Documentation:	Use-case specifications; UML activity and sequence diagrams
Tools & Systems:	Git/GitHub; Unix/Linux (coursework)
Other Tools:	Microsoft Word, Excel, PowerPoint, Outlook

EDUCATION

Software Engineering Technology (Co-op) Advanced Diploma	Sept. 2025 - Present
Centennial College, Toronto, ON	
<i>Key Courses:</i> Python Programming C# Programming Software Requirements Engineering Database Concepts (SQL) Client-Side Web Development Software Design Web Application Development	

SELECTED PROJECTS

Flight History Analyzer - Python	Sept. 2026
Developer Personal Project Toronto, ON	
• Built a Python CLI to summarize flight history by month, route, airline and airport • Validated CSV data; handled missing timestamps and calculated travel time and estimated distance	
WordCards - HTML, CSS & JavaScript	Sept. 2026
Developer Personal Project Toronto, ON	
• Developed a responsive HTML/CSS/JavaScript flashcard page with vocabulary and examples • Added card navigation, answer reveal and reversible progress tracking through DOM events	
Medication Reminder and Support System	Apr. 2026
Requirements Contributor Centennial College Toronto, ON	
• Worked collaboratively to author a use-case specification with seven workflow steps and four exception scenarios in a 5-member team • Created UML activity and sequence diagrams for reminders and patient acknowledgment	

VOLUNTEER EXPERIENCE

Community Volunteer	Feb. 2024
Changqing Garden Community, Wuhan, China	
• Served as friendly visitor during Chinese New Year for older residents living alone • Engaged residents in friendly conversation, showing empathy and respectful communication
